## SUMMARY

With programming background and passion for technology, I have gained hands-on experience through outsource projects in blockchain and crypto. I am proactive in learning new technologies and applying them in practice. I also have leadership experience, having led a student team to successfully deliver projects on time and with good collaboration. I'm eager to contribute to the success of software, web, or application projects.

## EDUCATION

2023 - Present    **Software Engineering** at **University of Information Technology - VNUHCM**

## WORK EXPERIENCE

**Blockchain and AI Agent Developer**                                    Feb 2025 - Present

I worked as a part-time developer at an agency team, where I contributed to the development of AI Agent and Blockchain Application.

**Web3 Fullstack Developer Freelancer**                              Aug 2024 - Feb 2025

I worked as a freelancer, focusing on web3 development. I gained experience in various technologies and frameworks.

## SKILLS

**Main Skills**
HTML, CSS, TailwindCSS
JavaScript (ReactJS, React Native)
NodeJS (ExpressJS)
Solidity, ethers.js

**Blockchain**
DeFi, GameFi
On-chain transaction tracking
Blockchain Infrastructure

**Extra Tools**
Git, Hardhat, Remix, VSCode

**Others**
Teamwork, Problem-solving

## PROJECTS

- **Twitter AI Agent**                                                                        [Demo]
  AI tool using Gemini model to post, reply, and extract insights from Twitter timelines.
  *Tech: NodeJS, Gemini API*

- **UraSwap**                                                                                       [Demo]
  DeFi testnet platform for real-time market data, token presale, and staking.
  *Tech: ReactJS, TailwindCSS, ExpressJS, EthersJS*

- **Crowdfunding Platform**                                                             [Demo]
  Decentralized platform to create/invest in fundraising campaigns with smart contracts.
  *Tech: ReactJS, TailwindCSS, EthersJS*

- **Library Management System**                                                    [Demo]
  Web app for book lending, user records, and admin dashboard.
  *Tech: ReactJS, TailwindCSS, ExpressJS*
